SPONSORS

THE STREAMLINERS

Strategic Core Business Function Optimization for Increased EBITDA and Valuations
The Streamliners specializes in transforming lower middle market companies ($15M to $100M+ revenue) by optimizing core business functions and systems that directly impact valuation multiples.

While many growing enterprises focus exclusively on revenue generation, we address the operational inefficiencies that silently erode EBITDA and depress company valuations. Most growth-stage companies develop their internal processes organically as they scale, creating significant operational inefficiencies that remain invisible. These systemic weaknesses typically reduce EBITDA by 15-25% and can dramatically impact business valuations.

Our Methodology
The Streamliners implements a proprietary optimization framework that systematically transforms how your organization converts disparate, siloed Structural Capital into a functional integrated system within a 90-Day Sprint cadence.

- *Comprehensive Value Analysis:* We conduct detailed mapping of all lead-to-cash systems, identifying high-impact optimization opportunities with precise implementation roadmaps
- *Valuation-Driven Approach:* Each strategic recommendation includes quantified EBITDA improvement calculations and projected valuation impact
- *Performance Guarantee:* Our engagements deliver an industry disruptor of a true ROI guarantee (ask us for details)

Ideal Partnership Candidates
Our approach creates exceptional value for lower middle market businesses that are:

- Positioning for strategic exit within a 3-5 year horizon
- Considering an acquisition or having undergone a recent acquisition
- Navigating scale-related operational challenges
- Seeking to improve profitability without sacrificing quality

We work closely with Business Value Advisors to enable the Value Acceleration Methodology™ supporting the overall success of the team and businesses. Strategic optimization of core business functions delivers both immediate performance improvements and significant valuation enhancement—creating compelling value for shareholders and positioning companies for premium exits.
